**CITY'S URBAN RUNOFF MANAGEMENT PLAN ON  
THE WEB**

**San Diego -- April 02, 2002** - The Storm Water Pollution Prevention Program is proud to announce that it has put its Urban Runoff Management Plan on the City's website at:  
<http://www.sannet.gov/stormwater/program/index.shtml>.

The Urban Runoff Management Plan is the City's blueprint for its actions to protect and improve water quality of the ocean, rivers, creeks and bays in the region, and achieve compliance with the State Municipal Storm Water Permit. The Urban Runoff Management Plan has been posted to allow public access and understanding of the overall efforts of the City to improve water quality in San Diego.

The Urban Runoff Management Plan was approved on January 28, 2002 and is effective through February 21, 2006.
